Massages

Swedish Massage

1 hour £38

30 mins £25

This is the most common type of massage therapy. Massage therapists use long smooth strokes, kneading and circular movements on superficial layers of muscle using massage lotion or oil.

Aromatherapy Massage

1 hour £38

30 mins £25

This is a massage therapy with the addition of one or more scented plant oils called essential oils to address specific needs. The massage therapist can select oils that are relaxing, energizing, stress-reducing, balancing, etc. One of the most common essential oils used in aromatherapy massage is lavender. Aromatherapy massage is particularly suited to stress-related conditions or conditions with an emotional component.

Deep Tissue Massage

1 hour £40

30 mins £25

Deep tissue massage targets the deeper layers of muscle and connective tissue. The massage therapist uses slower strokes or friction techniques across the grain of the muscle. Deep tissue massage is used for chronically tight or painful muscles, repetitive strain, postural problems, or recovery from injury.

Reflexology

45 mins £35

Although reflexology is sometimes called foot massage, it is more than simple foot massage. Reflexology involves applying pressure to certain points on the foot that correspond to organs and systems in the body. Reflexology is very relaxing, especially for people who stand on their feet all day or just have tired, achy feet.

Reflexology can also be done on the hands too.

Sports Massage

1 hour £40

30 mins £25

Sports massage is specifically designed for people who are involved in physical activity but you don't have to be a professional athlete to have one - it's also used by people who are active and work out often. The focus isn't on relaxation but on preventing and treating injury and enhancing athletic performance. A combination of techniques are used. The strokes are generally faster than Swedish massage. Facilitated stretching is a common technique. It helps to loosen muscles and increase flexibility.

Indian Head Massage

25 mins £20

This massage will soothe away stress and tension, leaving you relaxed, revitalised and re-energised. This is a very popular treatment, perfect for promoting a calm mind, a stress-free body and for maintaining optimum health. This therapy can be performed without oils with the client sitting and fully clothed, so it is ideally suited to the workplace or situations where it may not be appropriate to give a full-body hour long massage.

Other localised massage treatments available, such as foot massage, scalp massage, neck and shoulder massage 30 mins £25

Mellow Moments Thai Body Treatments

Thai massage is believed to have been developed by Jivaka Kumar Bhaccha, physician to Buddha, more than 2,500 years ago in India.

It made its way to Thailand, where the Ayurvedic techniques and principles gradually became influenced by traditional Chinese medicine.

Thai massage is more energizing and rigorous than more classic forms of massage. Many people find that Thai massage has the following benefits:

- **relaxes**
- **reduces stress**
- **improves circulation**
- **increases energy**
- **increases flexibility**
- **improves range of motion**
- **centers the mind and body**

Muscle compression, joint mobilization, and cupressure are also used during treatment.

CHAKRAS Chakra stones are also used in some treatments. This In Sanskrit chakra means "wheel," and those who can see them describe chakras as spinning wheels of light. They are found in the aura, an electromagnetic force field which surrounds every living being. The energy of the aura is that of our thoughts and feelings, and the chakras concentrate and coordinate the flow of these energies in and from the physical body. It is believed that illness first manifests in the realm of thought and feelings. Stress is an excellent example. The mind says, "I'm doing too much; I'm under pressure." This message translates into the emotional feeling of being burdened. On both levels resistance creates energetic blockages, as the mind and emotions try to close up against what is perceived as a negative experience.

If the mind and emotions continue to create resistance the blockage will eventually assume physical proportions, lodging in whichever physical area is most vulnerable.

The purpose of chakra balancing is to dissolve blockages before they become physical (although it can also be helpful with physical conditions). Crystals, being symmetrical in their molecular structure, radiate energy in a consistent and steady manner. When they're used in chakra balancing they can help to re-establish a healing, creative flow.

Mellow moments offer the following Thai treatments

Thai Oil Massage – 1 hr £40

This is a very popular choice of massage using Ayurvedic Dosha oils. Thai massage is a deep rhythmic massage along the major meridians and marma points. The massage works on blocked meridians with firm pressure with a view to unblock the meridian channels and restore the Ki flow. The massage can be performed either on the massage couch or on a traditional Thai mat.

Thai foot massage - 1hr £35

This is a fantastic treatment which offers much more than just a foot massage. The body's meridian system is treated from the feet to the back and scalp using a Thai foot stick and ginger foot massage cream. This is great for tired and achy feet, and a sluggish lymphatic system.

Hot poultice massage – 1hr £40

A massage with a difference! This massage uses hot herb poultices with Prai, ginger, turmeric and lemongrass. These poultices together with heat is great for stress relief, circulatory problems and for general aches and pains.

Shirodhara – 50 mins £35

A truly relaxing treatment to treat stress, anxiety, head aches, migraines and tension. A marma point massage is given to the feet, and this is followed by a warm coconut oil descending onto the third eye for 10 mins, with a scalp and face marma point massage. This treatment finishes with crystals placed on the body's chakras to heal and balance energy.

OTHER SPECIAL TREATMENTS

Acupressure Massage from 20 mins to 1hr £15 - £35

Acupressure can be extremely effective for treating common ailments and not only does it have almost no side effects, can be done through the clothes. Acupressure is based on a median theory; Meridians are channels of energy that flow round the body. They are used in Chinese and Japanese medicine and massage and are the same channels an acupuncturist uses. The energy is known as Ki in Japanese and Chi in Chinese. If the energy is flowing well, then the person is healthy whereas blockages and stagnation cause ill health. Our trained therapist can tailor make a treatment to suit your needs, whether it's in the comfort of your own home, at work or in a salon.

Hot stone massage with Chakra Crystals 1hr £40

Hot stone massage is a special massage where the therapist uses smooth, heated stones, either as an extension of their own hands, or by placing them on the body while they massage other parts of the body. The heat can be both deeply relaxing and help warm up tight muscles so the therapist can work more deeply, more quickly. This massage is also supported by the correct Doshia oil and crystals. A Perfect treat for stress and muscle tension relief.

This process is known as the chimney effect The rising air gives the eardrum a gentle massage and also helps to regulate ear pressure This is a very safe therapy and its popularity id growing as more people become aware of its positive benefits.
